

ANSHUL KUMAR

Software Developer – Full-Stack MERN & AI/ML

anshul.work28@gmail.com | +91-9971687187 | New Delhi, India | **LeetCode Knight (Top 3%)**

[LinkedIn](#) | [GitHub](#)

B.Tech CSE (AI)
NSUT Delhi, 2023–2027
CGPA: 7.51

PROFESSIONAL SUMMARY

Computer Science (AI) undergraduate at NSUT Delhi with hands-on experience developing full-stack MERN applications and NLP/ML systems. Skilled in JavaScript, Python, C++, RESTful API development, authentication systems, database design, and object-oriented software design. Strong foundation in data structures, algorithms, and software engineering, with a proven ability to build scalable full-stack and AI-powered applications from concept to deployment.

CORE COMPETENCIES

Languages: C++, Python, JavaScript, HTML, CSS, SQL

Frameworks: React.js, Node.js, Express.js, Tailwind CSS, LangChain

Databases: MongoDB, MySQL

Tools: Git, GitHub, Postman, Cloudinary, Jupyter Notebook

ML Libraries: PyTorch, Hugging Face, Scikit-learn

Core CS: DSA, OOP, OS, DBMS, Machine Learning, AI

PROJECTS

SecurePay Vault

MongoDB, Express.js, React.js, Node.js, Cloudinary, JWT

[GitHub](#) | [Live Demo](#)

- ▶ Built a full-stack workforce management platform with 2 user roles, 8+ protected routes, and 15+ RESTful APIs supporting authentication, payslip management, and reimbursements.
- ▶ Developed a reimbursement system supporting 2 user roles with real-time approval workflows, Cloudinary-powered document storage, and secure file validation for uploads up to 5 MB.
- ▶ Engineered RESTful APIs with JWT authentication, role-based access control, and modular backend architecture for secure and scalable operations.

Reliability-Aware BERT Question Answering

Python, PyTorch, Hugging Face Transformers, Scikit-learn, NLP

[GitHub](#)

- ▶ Developed an NLP question-answering system on SQuAD v2 with uncertainty-aware reliability scoring, enabling confidence-based answer validation and no-answer detection.
- ▶ Extracted 6 uncertainty and confidence-based features from BERT logits and trained a balanced Random Forest classifier (100 estimators) on 2000 SQuAD v2 samples, achieving balanced class-wise recall of 0.61–0.66 versus 0.27 for the baseline.
- ▶ Designed a 3-tier reliability labeling system (High/Medium/Low) with end-to-end inference pipeline; entropy difference ranked as most discriminative feature (importance: 0.24) – novel finding on BERT's asymmetric span boundary confidence.

Campus Link

MongoDB, Express.js, React.js, Node.js, JWT, Tailwind CSS

[GitHub](#) | [Live Demo](#)

- ▶ Built a full-stack MERN platform with 15+ routes, JWT authentication, and role-based access control for students and administrators.
- ▶ Implemented end-to-end opportunity management workflows, including posting, application tracking, and admin approval/rejection logic, using custom authorization middleware, protected REST APIs, and MongoDB-backed data management.
- ▶ Developed responsive dashboards with monthly analytics charts, reusable React components, and optimized state management using Tailwind CSS.

ACHIEVEMENTS

- ▶ Solved **1000+ algorithmic problems** across LeetCode, Codeforces, and other competitive programming platforms.
- ▶ **LeetCode Knight (Top 3% globally)** – consistently ranked among top performers in weekly and biweekly contests.
- ▶ **Codeforces Pupil** – regular participation in rated contests with consistent performance in competitive programming challenges.

EDUCATION

B.Tech – Computer Science (Artificial Intelligence)

Netaji Subhas University of Technology, Delhi | 2023–2027 | CGPA: 7.51

Class XII , CBSE

Delhi English Academy School, Delhi | XII: 84.4% (2023)

POSITIONS OF RESPONSIBILITY

Vice President, Axiom NSUT (Philosophical Society)

Sep 2024 – Present

- ▶ Oversaw content, design, and social media strategies to expand the society's digital presence and audience reach.
- ▶ Led workshops, debates, and short film campaigns while coordinating offline and online initiatives across the society.
